EXHIBIT LL

Food Services Guidelines for Employers and Employees

These guidelines apply to all restaurants and food services establishments, including food trucks and other food concessions. In regions that are in Phase 1, or have not yet reached Phase 2, such establishments may only operate by take-out and delivery. In regions that have reached Phase 2, such establishments may open outdoor spaces with seating for customers, in accordance with "Interim COVID-19 Guidance for Outdoor and Take-Out/Delivery Food Services." In regions that have reached Phase 3, such establishments may open indoor spaces with seating for customers, in accordance with the guidelines below/in "Interim COVID-19 Guidance for Food Services." Please see the aforementioned guidance for the definition of "outdoor space."

During the COVID-19 public health emergency, all operators of food service sites should stay up to date with any changes to state and federal requirements related to such establishments and incorporate those changes into their operations. This guidance is not intended to replace any existing applicable local, state, and federal laws, regulations, and standards.

Mandatory

Physical Distancing

Pursuant to the Cluster Action Initiative, effective
November 11, 2020, in any yellow zone in Erie, Monroe,
or Onondaga Counties, in addition to any other
mitigation measures required, any restaurant or tavern
must close by 12 midnight (12:00 am local time), and all
service must cease at such time. The establishment
cannot reopen or resume service until 5:00 am.
Executive Order 202.68 also sets forth additional
restrictions that food services establishments must
adhere to in order to operate.

 Limit indoor capacity to no more than 50% of maximum occupancy, exclusive of employees.

Limit outdoor capacity to the number of tables that can be safely and appropriately arranged, such that each table is a minimum of 6 ft. away from another.

All indoor and outdoor tables with seating for customers must be separated by a minimum of 6 ft. in all directions. Wherever distancing is not feasible between tables, physical barriers must be enacted between such tables. Barriers must be at least 5 ft. in height and not block emergency and/or fire exits.

Regardless of physical distance, employees must wear an acceptable face covering at all times.

Patrons must wear face coverings at all times, except while seated; provided that the patron is over the age of 2 and able to medically tolerate such covering.

Individuals seated at the same table must be members of the same party (but may be from different households), with a maximum of 10 people per table.

 If located in a cluster action zone pursuant to Executive Order 202.68, tables are limited to 4 individuals per party.

Seating in bar areas and communal tables are only permitted if at least 6 ft. can be maintained between parties.

Recommended Best Practices

Ensure a distance of at least 6 ft. is maintained among workers at all times, unless the core activity requires a shorter distance. (e.g. cooking, cleaning, clearing tables).

Prohibit the use of small spaces (e.g. freezers, storage rooms) by more than one individual at time.

Modify the use and/or restrict the number of work stations/employee seating areas to maintain 6 ft. distance in all directions.

Designate discrete work zones for services, where possible. Servers should serve specific zones in the restaurant to minimize overlap.

Ensure kitchen staff are dedicated to one station throughout their entire shift. (e.g. salad or grill or desserts), to the extent possible.

Encourage kitchen staff to place items on the counter for the next person to pick up, rather than passing items from hands to hands.

 Reduce bi-directional foot traffic by using tape or signs with arrows in narrow aisles, hallways, or spaces.

Encourage customers to wait in their car or outside until food is ready to be picked up/they're ready to be seated.

Encourage customers to place orders online or by phone.

Allow for contactless order, payment, delivery, and pickup, where possible.

Allow customers that will be seated to order food prior to arrival, and encourage customer reservations for seating.

Ensure a one-at-a-time process for vendors, in which one vendor delivers a product at a time, employees clean and disinfect high touch surfaces, and the next vendor can comes on the premises.

Food Services Guidelines for Employers and Employees

These guidelines apply to all restaurants and food services establishments, including food trucks and other food concessions. In regions that are in Phase 1, or have not yet reached Phase 2, such establishments may only operate by take-out and delivery. In regions that have reached Phase 2, such establishments may open outdoor spaces with seating for customers, in accordance with "Interim COVID-19 Guidance for Outdoor and Take-Out/Delivery Food Services." In regions that have reached Phase 3, such establishments may open indoor spaces with seating for customers, in accordance with the guidelines below/in "Interim COVID-19 Guidance for Food Services." Please see the aforementioned guidance for the definition of "outdoor space."

During the COVID-19 public health emergency, all operators of food service sites should stay up to date with any changes to state and federal requirements related to such establishments and incorporate those changes into their operations. This guidance is not intended to replace any existing applicable local, state, and federal laws, regulations, and standards.

Encourage, but don't require, customers to wear face coverings when seated at a table and not eating and/or drinking. In food trucks and concessions where there are not running water stations, employees should wear gloves or regularly use hand sanitizer and continue to comply with federal, state, and local food handling and hygiene requirements.	

Food Services Guidelines for Employers and Employees

These guidelines apply to all restaurants and food services establishments, including food trucks and other food concessions. In regions that are in Phase 1, or have not yet reached Phase 2, such establishments may only operate by take-out and delivery. In regions that have reached Phase 2, such establishments may open outdoor spaces with seating for customers, in accordance with "Interim COVID-19 Guidance for Outdoor and Take-Out/Delivery Food Services." In regions that have reached Phase 3, such establishments may open indoor spaces with seating for customers, in accordance with the guidelines below/in "Interim COVID-19 Guidance for Food Services." Please see the aforementioned guidance for the definition of "outdoor space."

During the COVID-19 public health emergency, all operators of food service sites should stay up to date with any changes to state and federal requirements related to such establishments and incorporate those changes into their operations. This guidance is not intended to replace any existing applicable local, state, and federal laws, regulations, and standards.

	Mandatory	Recommended Best Practices
Protective Equipment (Cont'd)	Limit the sharing of objects (e.g. kitchen tools, pens, pads), as well as the touching of shared surfaces (e.g. doorknobs, keypads, touch screens); or, require worker to wear gloves when in contact with shared objects or frequently touched surfaces; or, require workers to perform hand hygiene before and after contact. Ensure that employees who are bussing tables wash their hands with soap/water and, if they wear gloves, replace the gloves before and after cleaning and disinfecting tables.	s
Hygiene, Cleaning, and Disinfection	Adhere to hygiene, cleaning, and disinfection requirements from the Centers for Disease Control and Prevention (CDC) and Department of Health (DOH) and maintain logs that document date, time, and scope of cleaning. Provide and maintain hand hygiene stations including handwashing with soap, running warm water, and disposable paper towels, as well as an alcohol-based hand sanitizer containing 60% or more alcohol for area: where handwashing is not available or practical. Provide and encourage employees to use cleaning and disinfection supplies for shared surfaces for use before and after use of these surfaces, followed by hand hygiene. Regularly clean and disinfect the establishment and more frequently clean and disinfect high risk areas uses by many individuals and for frequently touched surface (e.g. restrooms). Cleaning and disinfection must be rigorous and ongoing and should occur at least after each shift, daily, or more frequently if needed. Ensure that equipment is regularly cleaned and disinfected using registered disinfectants, including at least as often as employees change workstations. Refer Department of Environmental Conservation (DEC) products identified by the Environmental Protection Agency (EPA) as effective against COVID-19.	they are appropriately cleaned/disinfected. Provide guests with a single-use, paper, disposable menus and/or display menus on white boards/chalk boards/televisions/projectors. Encourage customers to view menus online (e.g. on thei own smartphone or electronic device), where possible. Make hand sanitizer available throughout high-tough areas (e.g. outside restrooms), and place it in convenien locations, such as at entrances, exits, and cashiers. Instatouch-free hand sanitizer, where possible.

This guidance is not intended to replace any existing applicable local, state, and federal laws, regulations, and standards.

Mandatory

Hygiene, Cleaning, and Disinfection (Cont'd)

- Before returning to work, complete pre-return checks and assessments of kitchen systems to ensure a healthy and safe environment.
- Minimize sharing of kitchen equipment between staff (e.g. knives, pots, rags/towels), where possible.
- Do not provide customers with devices (e.g. buzzers) to provide alerts to customers that seating or an order is available, unless such devices are thoroughly cleaned and disinfected between each use.
- Provide cleaning and disinfection of exposed areas in the event of an individual is confirmed to have COVID-19, with such cleaning and disinfection to include, at a minimum, all heavy transit areas and high-touch surfaces.
- For take-out/delivery:
 - Provide hand hygiene stations for customers waiting for food and/or drinks.
 - Ensure staff wash hands with soap/water or use hand sanitizer; if staff use gloves, regularly replace
 - If pick-up/delivery is indoors, ensure windows/doors are opened to allow for ventilation.
- Ensure all condiments provided directly to customers are in single-use disposable containers or reusable containers that are regularly cleaned/disinfected.
- If non-disposable menus are used, clean and disinfect the menus between each party's use.
- Use pre-packaged silverware or pre-rolled silverware. Silverware must be pre-rolled while wearing masks and gloves.

During the COVID-19 public health emergency, all operators of food service sites should stay up to date with any changes to state and federal requirements related to such establishments and incorporate those changes into their operations. This guidance is not intended to replace any existing applicable local, state, and federal laws, regulations, and standards.

	Mandatory		Recommended Best Practices	
Communication	is	Affirm you have reviewed and understand the state- ssued industry guidelines, and that you will implement them.	~	Use audio announcements, text messages or notices or screens to communicate with customers awaiting an order/seating.
	a	Post signage to remind employees and patrons to adhere to proper hygiene, social distancing rules, appropriate use of PPE, and cleaning and disinfection protocols.	~	Establish a communications plan for employees, vendor and customers that includes a consistent means to provide updated information.
	d	mmediately notify the state and local health department if a worker was in close contact with others and tests positive for COVID-19.		
	n	Cooperate with contact tracing efforts, including notification of potential contacts in the workplace, while maintaining confidentiality required by state and federal law and regulations.		
	✓ c	Conspicuously post completed safety plans on site.		
Screening	(i) ee s d d	mplement mandatory daily health screening practices (e.g. questionnaire, temperature check) of their employees and, where practicable, vendors, but such screening shall not be mandated for customers and delivery personnel. At a minimum, screening must determine whether the employee or vendor has had: 1) COVID-19 symptoms in past 14 days, (2) positive COVID-19 test in past 14 days, and/or (3) close contact with confirmed or suspected COVID-19 case in past 14 days. Designate a point-of-contact as the party for individuals to inform if they later are experiencing COVID-19-related symptoms, as noted in the questionnaire.	> > >	Prevent employees from intermingling in close or proximate contact with each other prior to completion the screening (e.g. perform screening remotely). Screeners should be trained by employer-identified individuals familiar with CDC, DOH, and OSHA protoco and wear appropriate PPE. Maintain a log of every person, including workers and vendors, who may have close or proximate contact wire other individuals at the work site or area, such that all contacts may be identified, traced and notified in the event an employee is diagnosed with COVID-19; excluding customers and deliveries performed with appropriate PPE or through contactless means.
			~	Provide option for, but do not require, customers to provide contact information so they can be logged and contacted for contact tracing.
			~	Refer to DOH <u>guidance</u> regarding protocols and policie for employees seeking to return to work after a suspected or confirmed case of COVID-19 or after the employee had close or proximate contact with a perso with COVID-19.
